SITUATION SUMMARY

Flood Operation Center (FOC), Department of Water Resources (DWR), Prepositioning of Resources and Personnel (Continued)

- A weather briefing was held on 11/29/18 at 1000 hours. The next briefing is scheduled for 12/06/18 at 1000 hours.
- River forecasts will be issued twice per day through Friday, 11/30/18. Moderate rises are forecast on the main stem rivers, but all points are expected to remain below monitor stage.
- Flood Operations Branch (FOB) staff are assisting DWR's Security and Emergency Management Program to fulfill four Cal OES mission tasks for assistance with burn scar areas:
 - Flood fight materials to Pt. Mugu, Port Hueneme:
 - Four containers are staged near the Cal OES Southern Region Emergency Operations Center. Staff is available to provide access if needed.
 - Flood Fight equipment relocated from Los Alamitos to Pt. Mugu. All trailers at Pt. Mugu 11/29/18.
 - Flood fight materials to Ventura County:
 - One container was delivered on 11/29/18 at 1230 hours.
 - Staff:
 - Up to nine flood fight specialists (FFS) will continue to work in the Camp Fire burn scar area through 12/08/18 to assist with best management practices to help control erosion. Weather and working conditions will be evaluated daily and work may be suspended for safety concerns. It will be determined at a later date whether the FFS will be required to work after 12/08/18.
 - Staff was not deployed today as part of a stand down order due to windy conditions. Staff will report back to the burn scar area tomorrow.
 - Two safety engineers will deploy tomorrow FOB staff will continue to monitor and assist as needed.
- Updates will be provided if necessary.
- Precipitation can be monitored at the following website: http://cdec.water.ca.gov/california_burn_areas.html.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

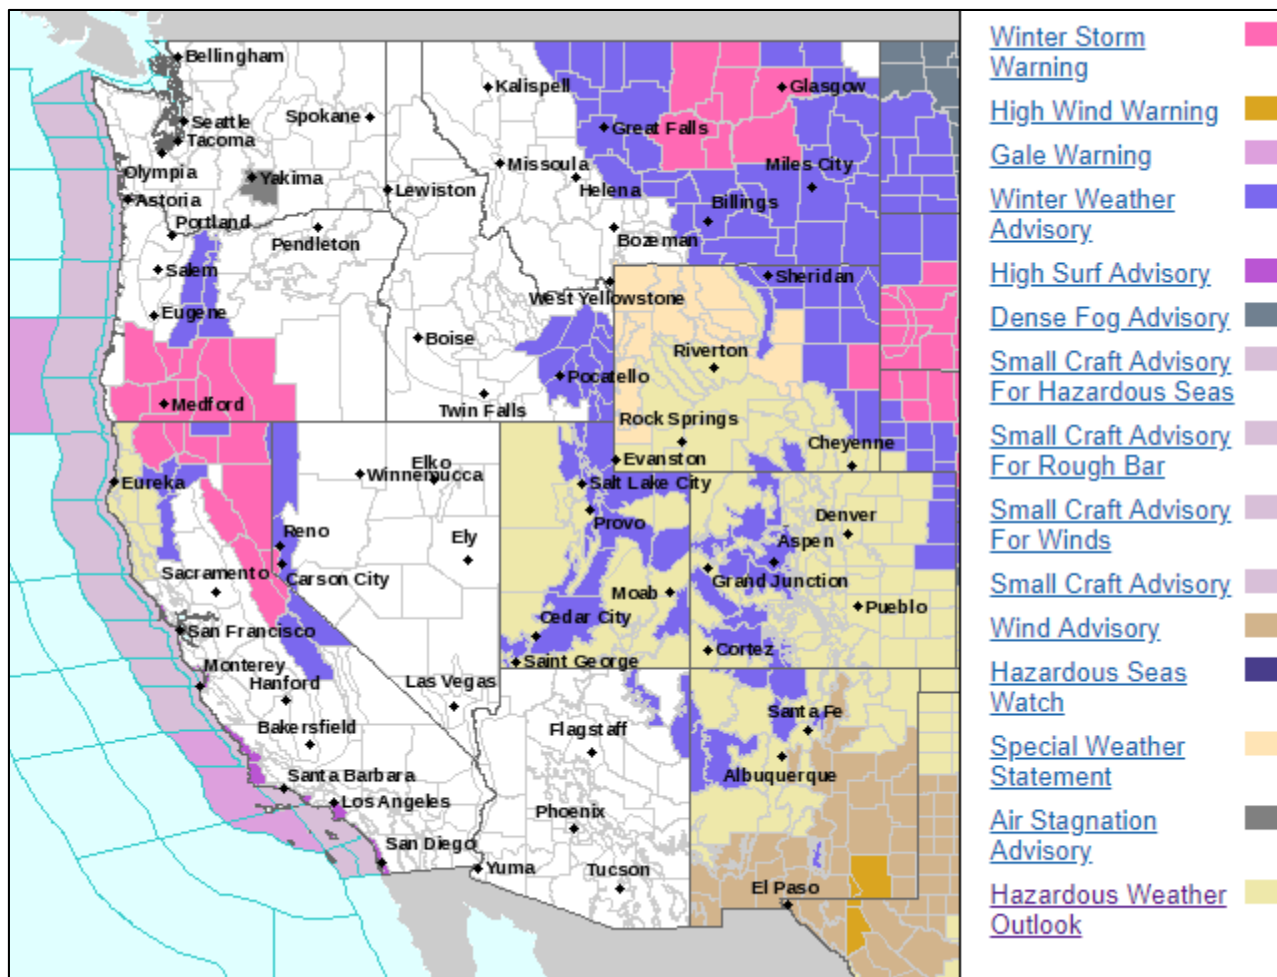

- Unsettled weather next 7 days.
- Widespread wetting moisture tonight through Saturday and potentially once again earlier half of next week.
- Snow levels lowering to 2500-3500 feet with tonight-Saturday system.
- Upcoming system won't be as wet compared to the previous system and confidence for area wide precipitation impacts earlier half of next week remains fuzzy due to daily weather model changes.
- Gustier pre-frontal SE-SW winds (gusts 25-35 mph) Saturday and potentially Monday night through Tuesday night.
- Higher humidity and cooler than normal temperatures through at least middle of next week.
- Long range models suggest another trough passage by the following weekend.
- Note: There is potential this product won't be updated between Dec 3rd to 7th next week due to a Predictive Service meeting.

SOUTHERN CALIFORNIA

- The powerful storm system brought widespread, significant precipitation to the area has departed, leaving northwesterly flow in its wake. Temperatures will remain cool today and Saturday with highs remaining several degrees below normal. A weak disturbance will bring light rain to the Sierras and Kern County Mountains Saturday. Drier and warmer weather will develop for Sunday through Tuesday with light offshore winds possible. Another storm will likely bring another round of widespread wetting rains next Wednesday.
- High temperatures in the 30s and 40s in the mountains to the 60s in the valleys through Saturday. A warming trend will begin Sunday and temperatures will climb back into the 70s at lower elevations of Southern California by Tuesday. Temperatures will cool back off during the second half of next week.
- Showers will be possible across the Kern County Mountains, the I-5 Corridor and across San Diego County today. Additional rainfall under 0.10"
- Scattered showers will likely redevelop Saturday, especially over Central CA. Additional precipitation 0.25-0.50", mainly along the Sierra Front.
- Gusty northwest winds of 25-35 mph possible in the mountains and deserts today. North winds of 25-40 mph will develop in the I-5 Corridor tonight. Winds weakening and transitioning offshore Sunday through Tuesday.
- Another storm system will arrive Wednesday, with moderate rain possibly focusing on Southern California.
- No hot weather or significant offshore winds are expected the next 7-10 days.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-56000 11/28/18, 1233 hours:** The Riverside County Sheriff's Department is requesting 4 High Water Vehicles to preposition to assist with possible evacuations due to an arriving severe weather event Thursday morning. The Operational Period for this request is 11/29/18 at 0600 hours through 11/30/18 (TBD). The resources are requested to report to the staging area at Diamond Stadium, 500 Diamond Dr. Lot C, Lake Elsinore, CA 92530 at 0600 hours. Thursday, 11/29/18. Cal OES Law Branch made the request to the California National Guard (CNG) Joint Operations Center (JOC) and it was approved. The Guard will provide (4) M1083 MTVs (High Water Vehicles) and personnel as requested. **Mission Ongoing.**
- **2018-LAW-55972 11/28/18, 0755 hours:** The International Emergency Response Coordination Center (IERCC) reporting an inReach device activation at coordinates: 36.576190 -118.294709, which plot to the John Muir Trail near the Mt. Whitney summit in Sequoia & Kings Canyon (SKC) National Park, Tulare County. The device R/O advised he lost contact with his hiking partner and is unable to locate her. **Update: 11/28/18, 0939 hours:** SKC NP has contact with the R/O (thru his device) and are directing him to a USFS Cabin (i.e. a hut) where there are supplies, sleeping bags, a heat source, etc. Due to impending severe weather including 60mph winds and up to 2' of snow over the next 24-48 hrs, the R/O will remain there overnight. SKC NP learned that the MP texted her husband at 0715 hrs. stating she was alive/well and attempting to make her way to the trailhead. Her location at time of the call was within a 1/3 mile from the inReach activation. No one has been able to reach her since. Due to the severe weather, they are unable to launch a helicopter and are requesting further assistance. AFRCC was requested to conduct cell phone forensics on the MP's mobile device. **1210 hrs.** IERCC advised that the R/O made it to the hut and will shelter in place until a rescue can be effected, which may be Thursday or Friday. **1642 hrs.** SKC NP received call from the MP who is about 2 miles from the trailhead. SKC requested mutual aid support from Inyo SO who are sending a ground team to assist her in exiting the park. LDO established contact with Inyo SO. **1914 hrs.** Inyo SO advised they were taking the MP to her vehicle which is outside the park. Regarding the R/O of the device, SKC NP advised there is a small weather window Thursday morning and CHP H-80 will attempt to airlift him out. If the window closes then the R/O will remain there until Friday when the weather is forecast to clear. **UPDATE: 11/29/18, 0704 hours:** SKC NP advised the 'weather window' is now between 0800-1100. CHP Air Op's is in contact with SKC NP and awaiting a determination whether a rescue is feasible. The R/O reported he is in the hut and in good condition; his inReach is still activated and is messaging periodically with SKC NP. IERCC briefed. **UPDATE: 11/29/18, 1700 hours:** [CHP Helicopter attempted rescue; unable to due to weather.](#) **UPDATE: 11/30/18, 0940 hours:** [CHP Helicopter again attempted rescue; unable due to weather. Will try again on today's date during a weather window opening.](#) **Mission Ongoing**
